MAGONAREZ PF-030-AC

DESCRIPTION

MAGONAREZ PF-030-AC is a waterbased, very fine particlesize oligomer- and surfactantfree polyacrylic copolymer emulsion for high performance wood, furniture and parquetcoatings.

PROPERTIES

MAGONAREZ PF-030-AC is used for coatings which meet the German Industrystandard DIN-68.861-1B. Coatings based on **MAGONAREZ PF-030-AC** have excellent “Anfeuerung”, chemical- and mechanical (abrasionresistance and anti-slip) resistances . **MAGONAREZ PF-030-AC** can also be used for pigmented 1-Component systems. **MAGONAREZ PF-030-AC** provides hard, clear- and excellent sandable films.

PHYSICAL DATA

Appearance : translucent, white
Highly transparent
Solids w/w : 40 % (± 1%)
Viscosity 23°C : < 800 mPa.s *
(Brookfield RVT, Sp 2)
pH-value : 7,5 - 8,5

CHARACTERISTICS

MFT : ca. 14 °C
Tg : N.A.
Density@ 20° C : ca. 1058 Kg/m3

STORAGE

Protect against frost.

STORAGSTABILITY

Minimum 6 Months in unopened original packaging.

* Pleasee note : This is a typical value, not specification.
